## Board Policy Review – Section 2000 – Students

Board Policy  
Review  
Section 2000 –  
Students

Superintendent Witt provided the Board with a draft copy of the revisions on Section 2007 Health and Safety – Programs and Activities, Wellness, and Naloxone (Narcan) Nasal Spray. This draft was a follow up to the feedback that the Board gave at the last meeting on the 2000 policies.

Superintendent Witt mentioned that Ms. Dillard, Executive Director of Student Services worked earlier this year in August and provided staff with the opportunity on the first professional development day to have training in the use of Narcan and as part of that training, they actually received one dosage or two dosages of naloxone. They were given background on both the reasons why the fentanyl crisis exists and how significant that crisis really is then some of our staff were able to partake in that training on that day just a couple of weeks ago now, we brought in those same individuals from an outside organization to do Narcan training for the entire administrative leadership team of the district.

Similarly, the administrative leadership team went through the same training. He explained the reason all staff were not trained at that time was because there were multiple professional development sessions that needed to take place that day. But as of now, our administrative leadership team has been trained, and they would be working with the District's Council on the policies. This entire policy book just developed some language regarding the fact of how and when Naloxone might be utilized in the school setting. Those were the two areas that were talked about potentially being brought back for future consideration by the board. If they were going to add these modifications and bring the recommendation forward to change this language. Our current process most often times is a first reading and a second reading process which would take place at the actual board meeting not a workshop. The workshops are for going through the policy book and getting feedback on things that might need to be added or revised.

Trustee Bailey asked about Section 2001 – Children of Non-Resident Employees.

Superintendent Witt explained the policy.

Superintendent Witt will work with the District's legal counsel to try to get a policy ready for first reading at the October Regular Meeting.

## Board Policy – Section 3000 – Curriculum &amp; Instruction

Board Policy –  
Section 3000 –  
Curriculum &  
Instruction

Section 3000 was just being introduced to the Board. Superintendent Witt asked if anything stood out to them now, he welcomed those questions. This section would be on the Board workshop agenda for any further discussion and questions at our October Board workshop.

President Pridemore encouraged the Board to go through Section 3000 and if there are concerns questions, jot them down, send her an e-mail so that they could have a deeper dive in October.

Superintendent Witt iterated what President Pridemore said about Section 3000.

Trustee Bailey asked about Section 2000 – Child Find and if the District does actually locate every student residing in the school or church who may be a student with a disability.

Superintendent Witt responded that Child Find is a legal obligation and that the District does comply with it. He also mentioned that Ms. Dillard talked about it at the previous meeting.

Ms. Dillard was not present at tonight’s meeting.

Trustee Bailey would like Ms. Dillard to provide an answer to his questions; does the District identify and locate every student residing in the school district? If yes, what range of disability?

Superintendent stated he would ask Ms. Dillard and get the information to Trustee Bailey.
