Workshop

2021 Capital Bond Project – Bid Response Award Recommendation Overview (MacGowan Renovations)

2021 Capital Bond Project – Bid Response Award Recommendation Overview (MacGowan Renovations)

Mr. Lamberto, Plante Moran Cresa started the presentation, and he gave an overview of what this presentation would be about. They would talk about centralizing the district programs, aging, some geographical presence, providing critical building insight, renovations, upgrading our performance arts and athletic facilities, upgrades, technology security, returning the neighborhood, feel at the elementary level, and overall improving facilities for enhanced program.

Board Workshop: 11/7/2022

Mr. Lamberto talked about the action plan and as to how they got to where they are today. He said back in September just to give an overall introduction to this program of renovation that that are targeting. The bidding period was for mid-September to mid-October. The team has worked together to combine those bids into potential recommendations for work. Tonight, was the award recommendation introduction and hopefully next week on Monday, they are going to be targeting a board consideration action on this information.

There were questions and answers.

Secretary Gubachy asked that the Bond Packet be printed landscaped instead of portrait.

Secretary Gubachy also shared some history of when they said maintain district geographical presence and revert returning the neighborhood field to the elementary level. One of the reasons why they went to elementary schools was the disparate spending between the buildings and the performance of the students. It was done mainly for an equity basis for the student. Not just because we had then all in one building. She gave the history for the people who weren't here when they did that, and she felt it was important to say out loud.

There were more questions and answers.
